## About

### Project part 2 of 2: Music of the sea

I am the Executive Director of a 501(c)(3) non-profit, Maximum Impact Media, Inc. All funding by donors represents a charitable tax donation. Neither I, nor the Board of Directors, receive a salary. All of the funding goes to pay for renting the USS Constellation for a performance "Music of the Sea" Project, licensing any use of cover songs, paying the band, and a live sound engineer. The performance will be recorded for the completed CD and DVD.

It would be exciting to have 3D video of a historical USS Constellation in Inner Harbor, Baltimore, MD.. In a related project, we hoped to video of a sloop in Oyster Bay, NY. With this funding, we hope to combine the excitement of 3D video on various historical maritime vessels and activities, with the talent of this trio who deserve recognition in their own right.

You can see this talented band in a live performance at the World Folk Music Showcase on our [YouTube channel](#) and [website](#), or an excerpted video below:

Gathering Time has recorded the song, "Mingulay Boat song."

The DVD will include this song and other songs about the sea as a music bed to

the video besides performance footage of the band. In addition to traditional sea songs, the video may include contemporary folk-rock musicians such as Sandy Denny, Fotheringay, Strawbs, Fairport Convention, Amy McCann, Tom Paxton, Dave Cousins, Trees, Stan Rogers, Steeleye Span, and The Once, and pop musicians, John Butler, Lou Reed, Morcheeba, the Byrds, Grand Funk Railroad, and CSNY. The sloop video represents "B" roll to augment the story in the songs. Mini-documentaries with the story behind the song are planned to be interspersed between each song.

We have 2 Panasonic AG-3DA1 cameras which natively shoot 3D video. I haven't found any 3D stock footage of Gettysburg.

The cost to rent the USS Constellation is \$3000. The additional funds are to pay for licensing the cover songs, a live sound engineer, and CD/DVD replication and packaging.

If the funding over-reaches the target amount of \$6500, then extra funds would be used towards for paying the band, their food and lodging, and extra hands. Anything beyond those funds would go to the non-profit's activities. Rest assured, there is transparent reporting to governmental agencies as it is a charity. No funds go to any of my personal use. The funds would be well spent on educational and charitable activities.

Just to have all business clear, the recordings will remain the property of

Maximum Impact Media, Inc., with all rights reserved. Backers will only receive their reward item.

We are experienced at producing multi-cam 2D and 3D videos. We are also experienced at producing DVDs. Aside from funding the license to video the reenactment, there is great potential for the project to succeed resulting in donors receiving their rewards.

If Gathering Time cannot subsequently be involved with this project then another band of equal talent will be found to complete the project.

## Risks and challenges

Cannot complete project with rental of USS Constellation and cover song licensing.
